

Sept. 3/30 Wed.

Dear Cooke and Jimmy,

Here we are in a lovely hotel on Lake Umbagog. We left home this morning which has turned to a beautiful summer weather. The drive to Waterville and to Oakes is beautiful. Just like you time. So we brought our ice chest and food and had our lunch at a picnic table at Lake Umbagog. We wish you knew where you were Jimmy, when you are here, but we are at Campbell's Lodge on the South Side.

Your letter came yesterday and we have been having a talk all this great place you are seeing. I am sure you are happy that you have your own things. We love the pictures and books, maybe you would be able to casually mention to your mother that she might want to send them back to me. I would like to look at them. Well, but anyway I feel out the one of your pictures, that big print of bear, I think I will have it made into a poster.

We look Mike to the airport last night (Tues) he was really tired and tired in back the week end. I know you will be happy to see Mary and I am glad she is going to see you. I have a rental apt. next Tuesday so we don't have to hit home until then. But probably will stay away from home only two or three nights. What can we want we can do.

My pen doesn't seem to go in the paper, but I had thought so much of it I have to use it up.

The weather is beautiful here and we are going for a walk now along the lake and have dinner at the restaurant here.

Love,
Mum
